Limitations: Apply only in good weather. Do not apply unless air, surface, and material temperature are at least 50° (10°C). Do not apply unless surface temperature is at least 5°F (3°C) above the dew point or when it is likely that moisture will contact surface of wet film. Do not use in immersion or high temperature service.

Surface Preparation: Clean surface carefully. Remove dirt, grease, rust, old paint and other foreign materials by wire brushing, chipping or scraping. Wash surface with detergent solution, rinse thoroughly with clear water & allow to dry. New or dense concrete surfaces must be etched to insure proper bonding. After cleaning, rinse with a solution of zinc sulphate 2 ½ lbs. per gallon of water) or muriatic acid (3%). Allow to dry without rinsing.

Mixing: Paint should be mixed as necessary to insure homogeneity.

Shelf Life: Once opened 6 months in containers. In general, unopened paint will have a shelf life exceeding one year.

Safety: This product and recommended thinners contain solvents and/or other chemical ingredients. Please observe proper health and safety procedures during storage, handling, application and drying periods. For optimum safety, user is directed to consult the current Safety Data Sheet for this product and other products being used coincidentally. When using in a confined area, consult the current OSHA or ANSI bulletins on safety requirements.
